ABOUT ME

I love challenges and learning new things and I always put 100% effort into my projects and will always look for a way to improve your product. Communication with my clients is my number one priority. I enjoy working in multicultural environments as well as in client-facing roles. Moreover, I have done many successful projects for US and EU clients.

Sr. ANGULAR JS DEVELOPER

PROFESSIONAL EXPERIENCE

SENIOR DEVELOPER

(2013 – present)

OnGraph Technologies

I have started my career as a Javascript developer, but after practicing have created lots of web application. I am experienced in web development with technologies using Angular1/2/4, HTML5, CSS3, Javascript. I keep myself updated with the latest technologies by following different blogs and viewing activities in developers' communities. I always cooperate with you, provide you creative and innovative ideas to add the values to our projects with my experience and profession.
